Gloria,

Stephen and I reviewed and discussed the edit for paragraph 7 and we are OK with it. Thanks CAS

Stephen:

Per our conversation just now, I edited again Paragraph 7 pertaining to the groundwater contamination. Perhaps more clearly reflects the current conditions – restriction and monitoring. Check with Carlos, if you concur, I will send update to HQ with date correction that you identified.

Subject:

Hi Barbara:

I am attaching a draft of the corrected deed notice for the Arkwood Superfund site. This draft includes the comments of Region 6 (Legal and Program) and ADEQ (Legal and Program). While your office is not typically involved in issues involving conditions in Institutional Controls, the Region has indicated that as HQ must be included in the integral matters involving the dioxin issues at the Arkwood site, your offices should see the draft IC also.

It is my intention to send the draft to counsel for McKesson corporation and Mr. Curt Grisham no later than Tuesday, September 27, 2013. Mr. Grisham will then have some time to review the draft IC for discussion at the September 5th meeting. Of course, McKesson counsel is not participating in the meeting on September 5th, and any comments on the draft IC from McKesson and counsel will come later.

We look forward to the participation of HQ at the meeting with Mr. Grisham on September 5th.

Thank you,

Gloria
